- Deterrence is the cheapest form of protection from thieves

Imitation DomeCam

Easy Mount

Cost effective security deterrent

Fool intruders with the Swann Imitation DomeCam and give an illusion that they are being watched and recorded. Even under close inspection, the authentic styling of the Imitation DomeCam makes it impossible to tell apart from real security cameras.

The Imitation DomeCam gives a feeling of security without the high cost of installing and maintaining a real security system. It easily mounts anywhere - on the ceiling or wall under entrances, hallways, indoors or outdoors. The lack of blinking lights alleviates the hassle of changing batteries, making it a cheap and maintenance free security system.
